

It is the aim of the Cavy Section within the EE to unite all cavy fanciers throughout Europe. The section therefore lends the following support:

- o To preserve and support all existing and standardised breeds (our cultural heritage)!
- o To promote thus far unstandardised or new breeds and colours.
- o To present all affiliated countries with as much information as possible in technical as well as other fields.
- o Encouraging exchange of information between the affiliated countries.
- o To arrange judges.
- o To arrange breeding stock.
